B. COSCA Administrator Stark provided a COSCA Fire Safety Program Update. Mr. Stark reviewed efforts to reduce fire risk and what neighbors can do to protect their homes in the defensible space buffer. He noted COSCA partners with other agencies for fuel modification on public lands and commented on wind transmission of embers, and brush clearance and the frequent colonization of those areas by more flammable non-native vegetation that can occur when native vegetation is removed. In response to Directors’ questions, he stated he could provide a map of where fuel modification is performed on open space. Chair Skei added information will be available on sustainable defensible landscaping on www.defensiblespace.org from the Santa Monica Mountains Conservancy and other agencies.

Speaker/Written Statement Cards: None.

D. CRPD Park Superintendent Kouba provided an update on Ranger Operations and Maintenance Activities including rescues this past week and trail closures due to draw-down of emergency resources through Sunday. Other issues included further tree loss in the Los Robles open space area with only a few oak trees left along the Whole Access Trail, the rangers' removal of graffiti with earth-toned paint, and COVID-19 response which has stretched staff very thin with over 600 full time equivalent ranger hours spent. Mr. Kouba responded to Directors’ questions regarding what events would require closing of open space.

Deputy City Manager Rogers commended the efforts of the Rangers, CRPD, Mr. Kouba, Mr. Friedl, Mr. Stark, Ms. Huber, and City Communications Manager South for their dedication and work in relation to advocating for open space during these challenging times.
